

Country Girl, Rock-and-Roll Boy

Verse 1

I saw her one night in Lachute,
Blonde hair across the room,
Country music all around her,
And I was watching only you.
She wasn't looking for a boy like me,
I wasn't part of her plan,
But I kept coming back to see her,
Till she finally took my hand.

Pre-Chorus

She had country in her heart,
I had rock and roll in mine,
Somehow when we got together,
The two sounds fell in time.

Chorus

Country girl, rock-and-roll boy,
Two different worlds, one Saturday night,
She showed me songs I'd never known,
I showed her how to hold me tight.
From Montreal nights to Lachute roads,
We didn't know where life would go,
Country girl, rock-and-roll boy,
We just knew we couldn't let go.

Verse 2

She took me down to Montreal,
Where the country bands would play,
Then Corford Lodge on weekends,
We'd dance the night away.
I'd drive her home toward Lachute,
With the radio turned low,
I was learning about her music,
She was learning rock and roll.

Pre-Chorus

She had country in her heart,
I had rock and roll in mine,
Somehow when we got together,
The two sounds fell in time.

Chorus

Country girl, rock-and-roll boy,
Two different worlds, one Saturday night,
She showed me songs I'd never known,
I showed her how to hold me tight.
From Montreal nights to Lachute roads,
We didn't know where life would go,
Country girl, rock-and-roll boy,
We just knew we couldn't let go.

Bridge

Christmas sixty-eight, I gave her a ring,
Young enough to believe in everything,
Then August came and the church bells rang,
And two hundred friends heard those two bands.
No money in our pockets,
A baby on the way,
But we had our little place
And a life to make someday.

Final Chorus

Country girl, rock-and-roll boy,
Standing together in sixty-nine,
She brought a little country to me,
I brought a little rock to her life.
Montreal nights and Lachute roads,
That's where our young story began,
Country girl, rock-and-roll boy,
A young woman and a young man.

Outro

Country girl...
Rock-and-roll boy...
That's where our story began.
