

MY DONNA – HOLD MINE

(Heartland Rock / Country Rock – 132 BPM)

Verse 1

I had a map with a thousand lines,
Places I'd already been.
I chased the sunrise around this world,
Never knowing where love had been.

Then one night across a screen,
A simple "Hello" changed everything.
No promises, no perfect plan,
Just two hearts learning how to begin.

Pre-Chorus

People ask me what I found,
Why I turned another page...

Chorus

My Donna... hold mine.
When the road gets long... hold mine.
I wasn't looking for a woman with the world in her hands.
I was looking for someone who'd hold mine.

Windows down... radio loud...
Laughing all the way.
Every mile feels like a gift...

My Donna... hold mine.

Verse 2

You never cared for fancy things,
You only wanted love that's true.
You never saw what I could see,
The beautiful woman inside of you.

Every mile we drive together,
Every morning feels brand new.
Out of all the roads I've traveled,

I'm thankful they all led to you.

Bridge

Love isn't measured by what we own.
It isn't counted in dollars or dreams.
It's waking up beside your best friend,
Still smiling after all these years.

Final Chorus

My Donna... hold mine.
When tomorrow comes... hold mine.
I wasn't looking for a woman with the world in her hands.
I was looking for someone who'd hold mine.

Laugh with me...
Dream with me...
Drive with me...
Grow old with me...

The best chapter of my whole life...

Started the day...

You held mine.

Ending

Forever...

Hold mine.
