

FIVE WONDERFUL YEARS — Lyrics

[Verse 1]

Grade four, maybe grade five,
That's when you came into my life.
St. Eustache was our little town,
Where every road just slowed right down.
Long bike rides beneath blue skies,
Fishing poles and dragonflies.
Young enough to chase our dreams,
Life was better than it seemed.

[Pre-Chorus]

The radio played every Friday night,
We'd laugh until the morning light.
Didn't know how fast time would fly,
We were just kids, you and I.

[Chorus]

Oh Valerie, won't you dance with me,
Back where we were young and free.
Those summer nights, those old guitars,
Dreaming underneath the stars.
Five wonderful years went rolling by,
Like an old song you can't leave behind.
Oh Valerie, can't you see,
You'll always be a part of me.

[Verse 2]

Bikes and beaches, summer days,
Young hearts finding their own way.
Friends together, side by side,
Green Island and those bicycle rides.
Music playing, Saturday night,
Everything in the world felt right.
We didn't have much, but we had time,
And those memories are still mine.

[Chorus]

Oh Valerie, won't you dance with me,
Back where we were young and free.
Those summer nights, those old guitars,
Dreaming underneath the stars.
Five wonderful years went rolling by,

Like an old song you can't leave behind.
Oh Valerie, can't you see,
You'll always be a part of me.

[Bridge]

Your mother always welcomed me,
Like I was family.
She gave a young boy hope to hold,
A little warmth against the cold.
Some kindness never fades away,
I still remember every day.

[Final Chorus]

Valerie, won't you dance with me,
Let's be fifteen one more night.
Hear those old guitars again,
Everything still feels so right.
Though the years have slipped away,
I still smile when I hear your name.
Oh Valerie... wherever you are...
Thanks for helping shape my heart.

[Outro]

Those five wonderful years...
Will always be my favorite song.
